

PHARMACY

Customized PBM Management

USI evaluates independent pharmacy services and pharmacy benefit managers.

- The complex pharmacy ecosystem comprised of manufacturers, distributors, coalitions, PBMs, consultants, claims administrators, and pharmacies lacks transparency as it hides significant profit in each transaction that drives plan costs up.
- USI matches independent pharmacy consultants and PBMs to satisfy specific client needs.
- USI helps employers navigate the complex pharmacy ecosystem to select the consultant that best meets their needs.

Impact and benefit:

- Estimated **savings of 15% to 25%** of pharmacy costs as compared to an unmanaged bundled program
- Robust financial reporting and transparency
- Group specific clinical management services

Effectively Managing the Fastest Rising Cost in Healthcare
